

Autogrill Group – 3Q2012 Financial Results

Milan, 08 November 2012

FORWARD LOOKING STATEMENTS

This presentation is of a purely informative nature and does not constitute an offer to sell, exchange or buy securities issued by Autogrill. It contains forward-looking statements, which have by their very nature an element of risk and uncertainty as they depend on the occurrence of future events.

Actual results may differ significantly from the forecast figures and for a number of reasons, including by way of example: traffic trends in the countries and business channels where the Group operates; the outcome of negotiations on renewals of existing concession contracts and future tenders; changes in the competitive scenario; exchange rates between the main currencies and the euro, esp. the US dollar and UK sterling; interest rate movements; future developments in demand; changing oil and other raw material (food) prices; general global economic conditions; geopolitical factors and new legislation in the countries where the Group operates; other changes in business conditions.
