Autogrill wins the Oscar di Bilancio 2013 in the “Listed companies and large enterprises” category

Milan, 2 December 2013 – Autogrill has won the “Oscar di Bilancio 2013” (an award for best financial reporting) in the “Listed companies and large enterprises” category. The award was given to the Group on the grounds that “the financial report provides an exhaustive picture of the context in which Autogrill Group operates in Italy and abroad and offers full and clear information on the economic and financial management data not only at a consolidated level but also for the single business divisions, Food & Beverage and Travel Retail & Duty Free.”

The award was collected by Autogrill chairman **Gilberto Benetton** and CEO **Gianmario Tondato Da Ruos** taking part in the Oscars ceremony held today at the Milan headquarters of Borsa Italiana under the aegis of the President of the Republic.

“This accolade acknowledges the crowning of the internationalization process that Autogrill initiated years ago and which through continual investment in growth has made it a leading Italian group at world level,” said Autogrill chairman **Gilberto Benetton**. “An exhaustive and transparent financial report certainly helped provide a clear picture of the business and that is capable of generating value for all the stakeholders.”

The award was assigned on the grounds that, **in the words of the Jury**, “the Company presents a well organized and robust model based on a governance system that takes into account both clearly defined processes and relationships with stakeholders. Great care went into providing a full description of the various types of risk affecting the Food & Beverage and Travel Retail & Duty-Free sectors. Its commitment to sustainability, as seen in the excellent results achieved, is endorsed by the “Project A-Future”, whose aims are improvement and innovation across three areas: People – Products – Planet”.

Promoted and organized by Ferpi, the Oscar di Bilancio examines and assesses the financial reporting of the companies taking part in terms of communication, structure and usability for all their stakeholders and without looking at the merits of the economic, environmental or social results obtained. It is a permanent laboratory that collects and develops ideas arising from the analyses and expectations of an economic community in continual evolution.

Autogrill won an Oscar di Bilancio in the “Corporate Governance” category in 2008.
